

Shared Sled Declaration

Name of Race _____ Date of race _____

Class sled will be shared in _____

Brand of Sled _____ cc of sled _____

Last 6 numbers in vin number of sled (chassis) _____

1st racer sharing sled in this class Bib # _____

Name _____

2nd racer sharing sled in this class Bib # _____

Name _____

Tech Signature: _____

This form will be filled out for each class in which a sled will be shared, and must be turned into Tech prior to racing that sled. This form must be submitted at each event.

When sharing sleds, the sled must clear tech and be removed from Tech prior to changing racer numbers on the sled. This is to eliminate confusion and help Tech to do their job faster. It is nearly impossible to tech a sled for one racer if another racer has already changed the numbers on the sled.

*We will be checking vin numbers and racer numbers as you check into the hot pit. Both numbers must match until tech is cleared. If you check a sled into the hot pit as bib # 999X and vin # 898989 it will be inspected in tech as Bib# 999X and vin# 898989. The numbers must match. **NO EXCEPTIONS.** If you are changing numbers on sleds, do it outside of both the Hot pit and Tech pit. Sled sharing is allowed to help you the racers.*

Don't confuse things or chance disqualification. If you have questions, ask before, not after!
